I'm worried about those individual's who's Comp Hab Workers and Respite workers did not make it to their houses.
I'm worried about those individuals who are fit to live independently and they suffer from anxiety and don't know how to react to the weather outside because they don't have their loved ones to reassure them that this too shall pass.
I'm worried about those individuals who live with their elderly parents who are not capable of shoveling snow to be ready to get out in case of an emergency.
I'm worried will I be able to cover all the basis regarding emergencies when I decide on my boys residential placement.
I'm worried if the new Coordinated Assessment System in the Transformation Report will include an emergency section for individuals on all levels when coping with natural weather occurrences when their workers cannot show up at their doorstep.
I'm worried.....
